SEPTEMBER 26, 1955

GENEVIEVE

One of the best of the 1954 English film comedies will be shown in the Lecture Hall on Monday evening, October 3rd at 8:30 P.M.

The humor of "Genevieve" differs from its predecessors in that it is found not in eccentric types, but rather in the unconventional doings of perfectly conventional people.

Two young couples go barreling off on the annual London-to-Brighton Commemoration run in their vintage cars. One of the young men, still basking in the blessedness of bachelorhood, has unsuccessfully sought in the previous years to combine seduction with sightseeing. He chooses for this particular run a charming redhead with very likeable attributes and an unsuspected talent.

To get on with the story, however, the two men decide to race their venerable buggies back to London and the richest comic invention is reserved for the strategems of the two friends once the spirit of competition is upon them. They pass and re-pass each other in a veritable crescendo of spiteful delaying actions. It is an "ironic twist" of fate that decides the winner.

Recent stay-aways will be glad to know that since more soundproofing materials have been added in the Lecture Hall, British accents are very nearly understandable.

CHESS, ANYONE?

George Koltanowski, International blindfold chess champion, will be in New York sometime in October. It may be possible to get him to give an exhibition at the Laboratory if enough players are interested. His suggestion is that he play all comers simultaneously and follow up with a number of rapid transit blindfold games and a lecture. His fee would be "most reasonable", depending upon how many players show up - guesstimated at about \$1.50 per board.

A definite date can be set if we can get the reactions of those interested and determine the best evening for a good turnout.

Those interested please contact J. Robertson, Ext. 301 or M. Slavin, X491.
